

SALT NEWSLETTER

As this is the first SALT Newsletter with a brand new SALT each member wrote a short paragraph introducing themselves.

My name is Lydia and I am the president for this year's SALT team! I have been a member of the team for the past two years, in which I served as the treasurer and secretary. I look forward to taking on a bigger leadership role in 2018/019! My main role as president is to lead meetings and delegate tasks to other members of the team. I also help with organizing events, running canteen, overseeing all activities, and communicating with the teachers and school body. Outside of school, I enjoy running, taking photos, and hanging out with my geckos. I can't wait to see what challenges this year brings and I'm looking forward to all the awesome things we have planned!

I'm Leah, the new SALT secretary! This is my first year on the team, and I'm very excited for what it has in store. As SALT secretary I'm in charge of this newsletter and the SALT board, as well as sending out emails, and taking notes during meetings. I work with the rest of the team to do other tasks such as running canteens and school events. When I'm not at school some of my favourite things to do include reading and making art. I'm excited for this new year and everything we have planned!

Hello, I am Ian, the new 2018-2019 SALT treasurer. I am in charge of the money and the bank account. I keep a record of all the money we get and the money we spend. I enjoy working with numbers so this is a great opportunity for me to use them and keep track of them. I am looking forward to an exciting year of fun and canteens.

My name is Brandon Schouten, and I am the new Events Coordinator. My responsibility as Events Coordinator is to organize the many events throughout this school year, from the various hot lunch days to the Elementary sports tournaments. I have been a student at Tyndale since Grade 1, and am now entering my final year. I look forward to organizing the various sports events, as I have a great passion for sports myself. Since this is my final year at Tyndale, I will try to leave a good impact on both the students and the school, and hopefully, this turns out to be the best SALT team we've ever had.

Hi! My name is Caitlin and this year I will be filling the position of SALT foods coordinator. I will mostly be responsible for arranging canteen and will also be working with the rest of the SALT team on other events and projects. I'm looking forward to seeing what this school year has in store for us!
